Subject: mercury thermostats

Dear Don:

Thank you for returning my call today.

ITT is in receipt of the letter dated January 30, 2015 from Ms. Batarseh. ITT is willing to participate in individual and/or group discussions with regard to certain proposed improvements to the mercury added thermostat collection program in California. Given the current and forecasted weather conditions in the Northeastern US, I will have to participate in such meetings by conference call. It appears that many TRC members have not yet received their letters, and thus a 30-day extension of the deadline may be necessary.

Sincerely,
Fern
